

A sleek, modern Azimut 72 Flybridge yacht is shown from a side profile, moving across the water. The yacht has a dark blue hull and a white upper structure with large glass windows. It features a flybridge at the stern and a smaller bridge forward. The background consists of a rugged coastline with steep, rocky cliffs covered in green vegetation, and distant mountains under a blue sky with scattered clouds. A small sailboat is visible in the distance to the left.

# AZIMUT 72 FLYBRIDGE (2020), FULL OPTIONS

2020 | 22.64 m | FOR SALE

# OVERVIEW

There are Azimut 72s. And then there is this one. The difference is measured in figures: €900,000 in factory and bespoke options added to an already exceptional yacht.

Seakeeper Zero Speed stabilisers, hard top with sliding roof, full teak deck and flybridge, hydraulic gangway, three helm stations with joystick, Bose sound system, 7 televisions with satellite decoders, Williams 390 tender in full options, complete diving equipment with a limited-edition Panerai Submersible watch.

In 2025, over €90,000 of preventive and corrective maintenance was carried out at 400 hours: full overhaul of both MAN CR V12 engines, both Kohler 19 kW generators, complete hydraulics (gangway, platform, 3 winches, all cylinders replaced), new battery bank, air conditioning, plumbing, watermaker, bow and stern thrusters, all pumps and solenoid valves.
