

BENETEAU ANTARES 30 S « LIBERTY »

2010 | 10.22 m | FOR SALE

OVERVIEW

The Bénéteau Antares 30 S is a reliable choice in the segment of cruising motor yachts around 10 metres, recognised for its balance between onboard comfort, sea safety and genuine operational versatility. Configured for offshore cruising and equipped with a Yanmar engine of 380 hp, this model offers a power reserve superior to most equivalent units, bringing greater peace of mind when cruising and a real ability to handle varied sea conditions.

The Yanmar 380 hp diesel engine ensures smooth navigation, excellent responsiveness when the sea builds and a comfortable cruising speed without excessive strain on the machinery. Yanmar's reputation for reliability, combined with parts availability and controlled maintenance, represents a tangible advantage both in use and at resale.

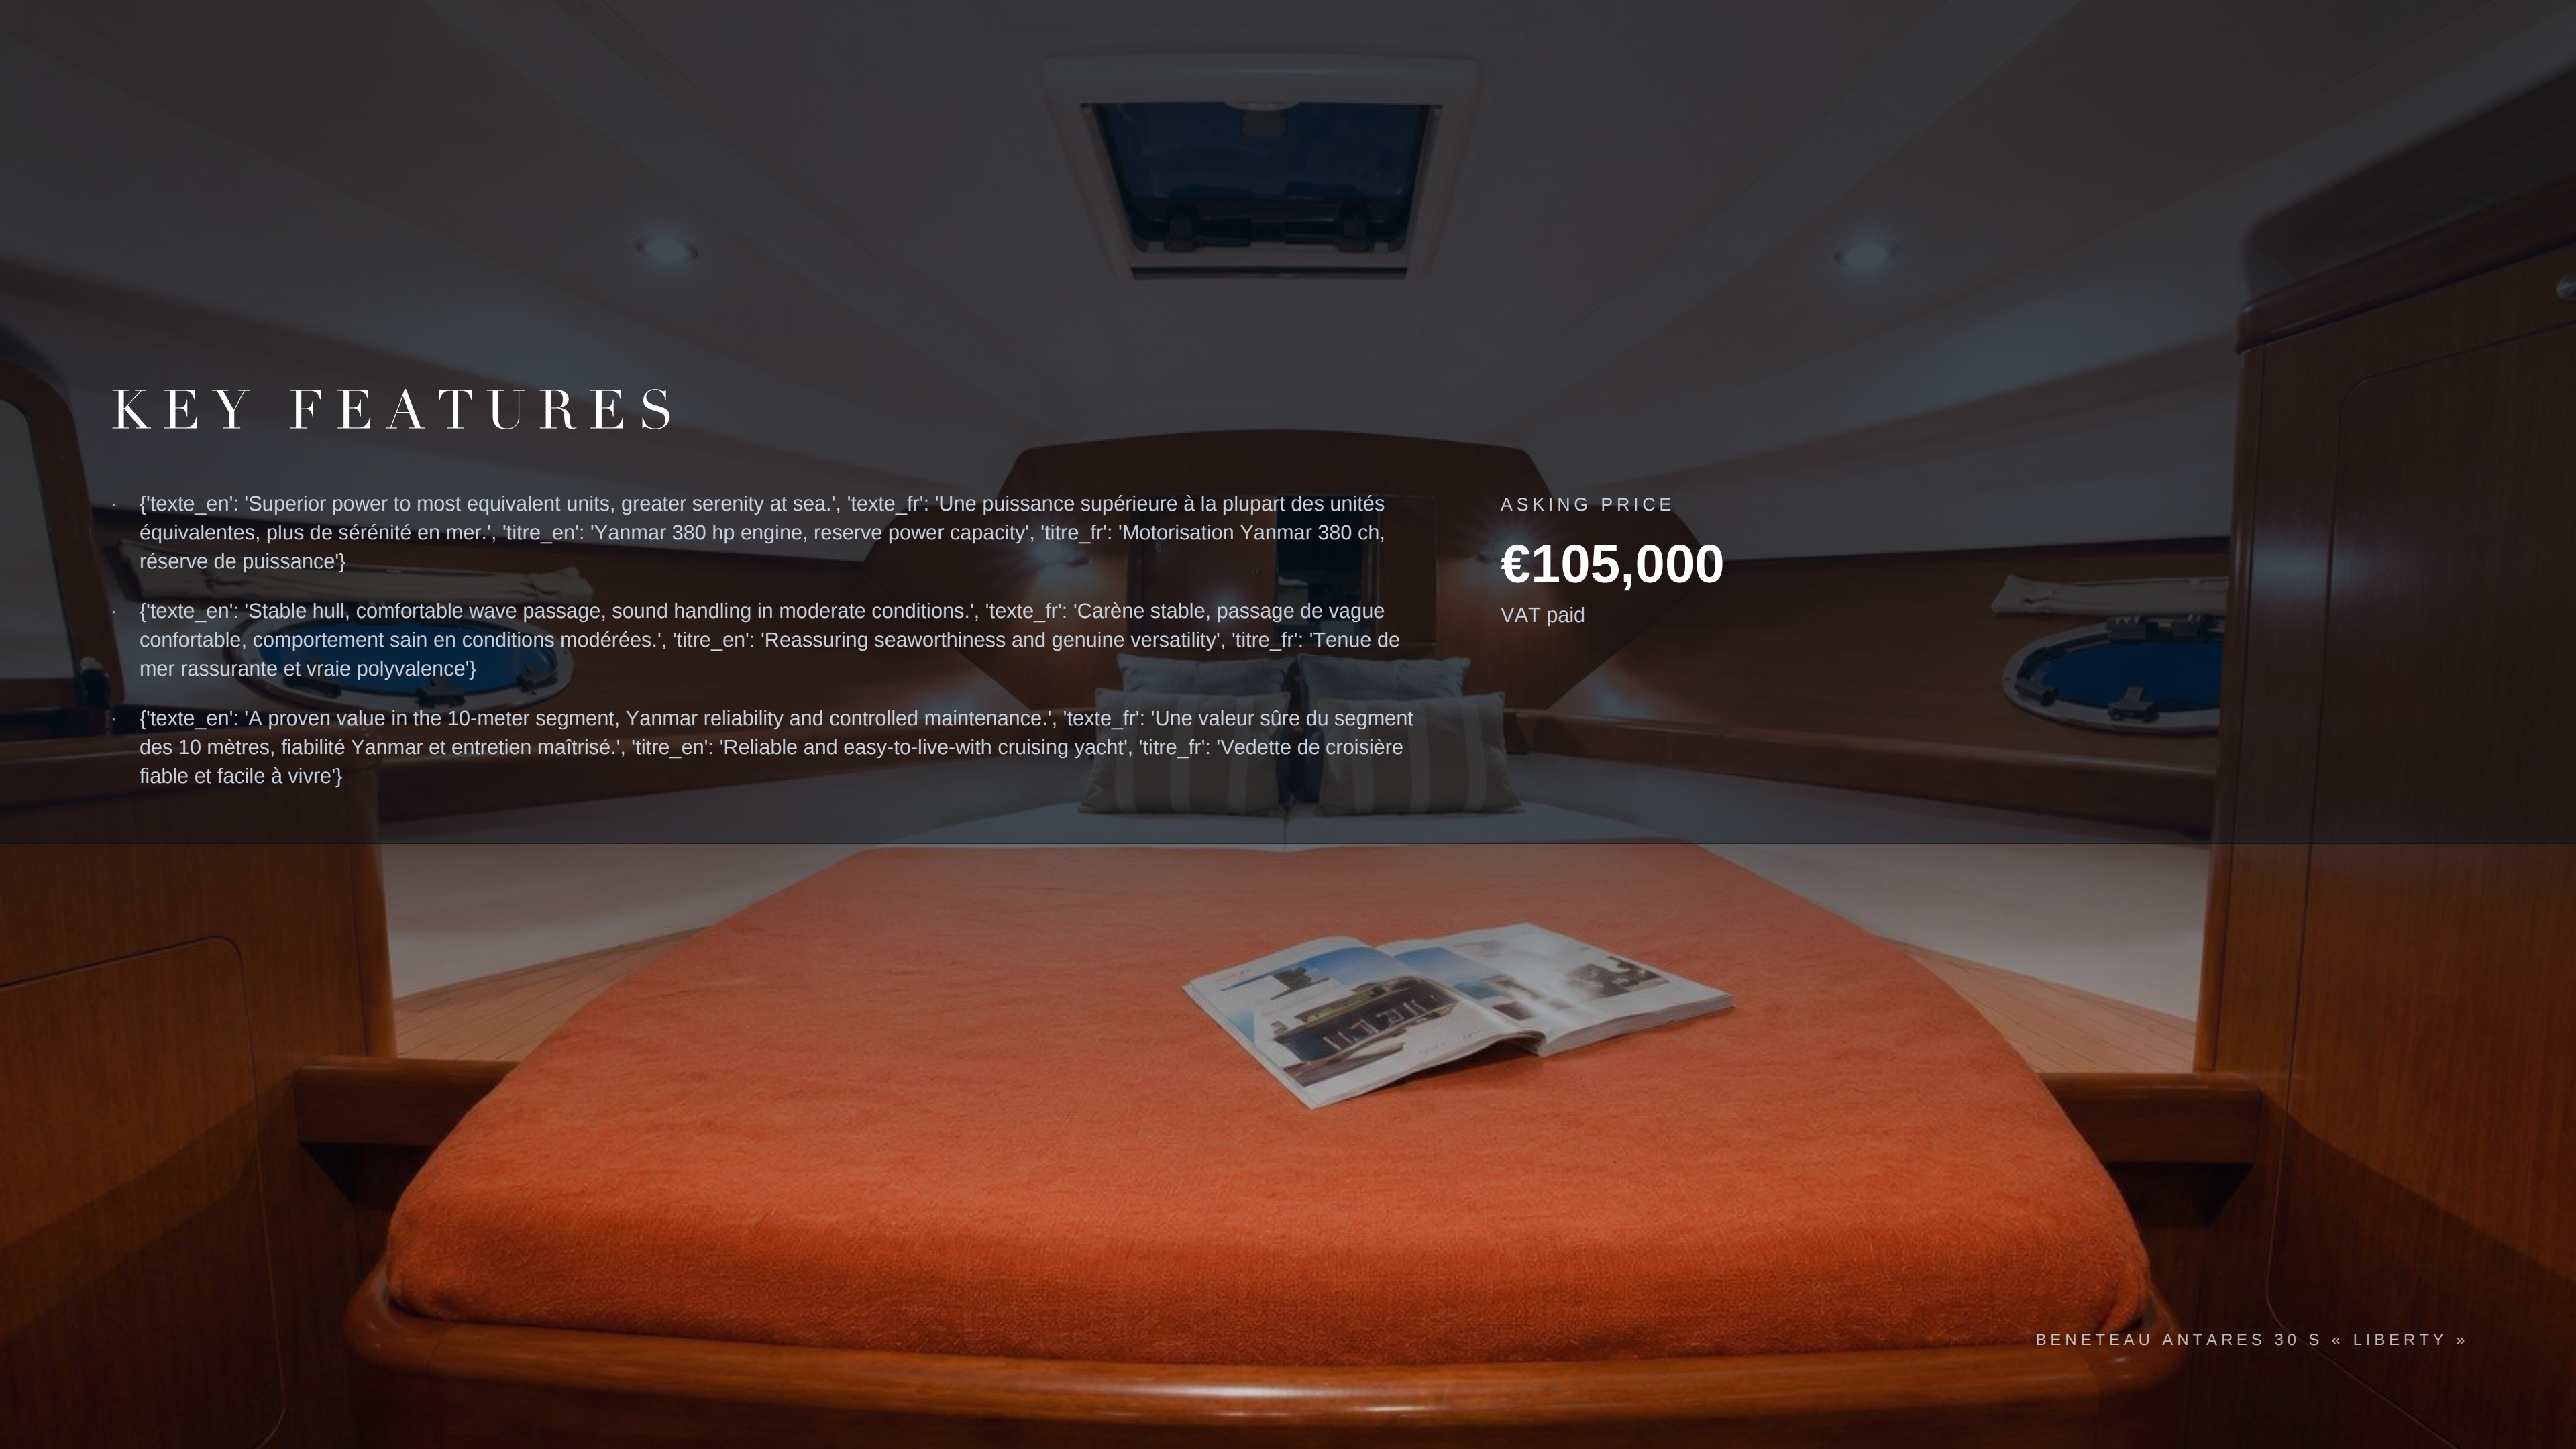

The hull of the Antares 30 S offers stable and reassuring sea-keeping, with comfortable wave passage and sound behaviour in moderate conditions. This configuration allows regular cruising with confidence, whether for sustained coastal outings, weekends at sea or more demanding passages.

Onboard, the layout prioritises comfort and ease of living, with a bright wheelhouse, a welcoming saloon and two cabins offering remarkable habitability for a yacht of this size. With its balanced dimensions, its CE Category B rating and coherent autonomy for coastal cruising, this Antares 30 S represents a particularly logical choice for a yachtsman seeking a reliable, seaworthy and genuinely usable vessel.
