

GALEON 405 HTL

2018 | 13.46 m | FOR SALE

OVERVIEW

The Galeon 405 HTL is one of the most cleverly engineered sport cruisers in the 40-foot segment and this 2018 example raises the bar further.

Only 335 engine hours on twin Volvo D4 300 hp, a full suite of new Raymarine electronics, hydraulic gangway added post-delivery, and a 3D Tender with electric outboard motor stowed in the dedicated garage.

Two cabins, each with its own full bathroom, a cockpit that converts from social space to dining table for six with a single gesture, and an electric sliding sunroof that lets you choose between open-air and protected navigation at will.
