2022 - €1.200.000 (VAT Paid)

NEMO

This 2022 Solaris 55 is the answer.

Designed by the renowned Javier Soto Acebal, she embodies the perfect balance between minimalist aesthetics and raw marine power.

Where other shipyards compromise, Solaris sets the standard :

flush teak decks, sleek lines, and exceptional stiffness under sail.

Unlike ordering a new build with an 18-24 month waiting list, this yacht is available immediately.

She is in near-new condition, meticulously maintained, and configured with over €400k in options for total autonomy (Generator, Watermaker, A/C, Solar panels).
