

GOLDEN PEARL

AZIMUT 66 FLY | FOR SALE

M/Y GOLDEN PEARL is an outstanding opportunity in the 65–70 ft flybridge segment: a 2017 Azimut 66 Fly, offered by her second owner, with strictly private use and no charter history.

With approximately 700 engine hours, the yacht stands out for her rare level of follow-up,

featuring 100% Caterpillar maintenance, ensuring reliability and peace of mind for her future owner. The configuration is perfectly suited for Mediterranean cruising as well as more demanding passages, notably thanks to her Seakeeper 16 gyroscopic stabilizer, which significantly improves comfort both underway and at anchor.

Externally, the Azimut 66 is recognized for her ~28 m² flybridge, one of the largest in her category, designed as a true open-air terrace at sea with dedicated lounge / dining / relaxation areas, complemented by a well-designed flybridge wetbar / outdoor galley, ideal for entertaining.

Teak fitted on the cockpit, bathing platform and flybridge reinforces the yacht's "lifestyle" DNA, while the hydraulic swim platform provides effortless water access and easy tender deployment.

The 4-cabin / 8-guest layout is complemented by separate crew quarters, offering privacy and excellent operational comfort.
